

Both being legal-tenders, the least valuable coin will always be used in making payments; and will become the medium of exchange in the exchange of commodities and consequently the more valuable coin would be hoarded or sent out of the country into a market where its real value will be recognized. The free coinage of silver would not for a long time add any stock of money; on the contrary, the immediate effect of such a policy would be a contraction to the extent of fully one-third of our present volume of currency by the expulsion of about \$325,000,000 in silver dollars, which would be in circulation fifteen years to supply its place with silver dollars, even if our mines mined nothing else.

While, therefore, it is not at all certain that free coinage would ultimately make the internationalization of money possible, it is absolutely certain that it would give us a depreciated and fluctuating currency, and that the depreciation would be the property of the producers of exportable articles, who would be benefited or injured by such a result. The prices of exportable products are fixed in the market, and the money which they would receive, in the currency of that country according to its nominal value there. The depreciation would not affect them, and they could not possibly increase the price of their cotton or wheat or any other American product in Liverpool, Paris or Berlin, whatever effect it might have upon the nominal price in this country. The only effect would be that the exchange would be depreciated, and that the value of being worth \$4.86 in our currency at it is now, would be worth 93.72, and when the people would be able to make a remittance to pay a debt abroad, they would have to pay twice as much in our money for the same number of pounds as they pay now. For example, if they were to make a remittance to pay a debt here, would they only half as much in his money? The same number of dollars as his people now.

When silver is worth 60 cents per ounce the price of cotton is 46 cents, but if the price of silver should advance to 62 cents per ounce, the value of the bullion contained in the dollar would be increased by an increase of nearly 4½ per cent. The price of cotton or wheat will not rise in proportion to the appreciation of the dollar, but the farmer or the grower of cotton or wheat, the exporter for export will not pay for it at the rate of 48 cents for each dollar while the silver is worth 60 cents an ounce, because he has to pay 48 cents for each dollar of 62 cents per ounce before he can sell his product abroad and get his money for it, and he knows that if this happens the goods he exports will be sold at a lower price for as many silver dollars as he paid to the producer here. The assertion that a fall in price occurred since 1873, due to the devaluation of gold, is a very old and well-known economic and historical fact that it seems scarcely worth while to go

COMPARISON OF PRICES AND WAGES

In 1891, 1892 and part of 1893 I had the honor to serve on a sub-committee charged by the Senate of the United States with the duty of ascertaining the course of the prices and wages of labor for as long a period as authentic records would enable us to embrace in our investigation. The purposes of comparison the prices of commodities and the wages of labor for the year 1860 were adopted as the standard.

The prices for the year 1960 being used as the standard were represented by 100. When this investigation was made, in 1969, articles of food stood at 103.5, clothing at 102.5, shoes at 102.5, and near 4 per cent. higher than in 1960. Clothes and clothing at 81.1; fuel at 74.9; lighting at 91; metals and implements at 122.3; drugs and chemicals at 70.1; lumber and house-building materials at 70.1; and housefurnishing goods, 70.1, and miscellaneous goods, 70.1.

LABOR THE ONLY THING AFFECTING PRICES

The only thing which has been advanced as the cause of the rise in prices by the changes in the relation between supply and demand, by improvement in the methods of production and distribution and by the other influences which produce fluctuations in prices of commodities generally, is labor, and it is the most important single source

THE BANKS. Fully 21,000,000 of our people, generally poor, are at least people of moderate means who have given credit to the great corporations and companies, and, in my opinion, it would be a grievous wrong to adopt any policy which would deprive them of their money. They have deposited and receive just as good money as they parted with when they made the deposits in the banks or paid the premiums on their life insurance. The money of the poor ought not to be sacrificed to the avarice of the wealthy mine owners or the ambition of aspiring politicians. It is the duty of the Government to maintain an equal and substantial interest in the welfare of the country and a just appreciation of the contributions of its citizens will exert their powerful influence to prevent this great wrong can never be perpetrated.

The United States should go entirely

There can be no antagonistic interests between the business and industry of one country at the expense of another, but we must all stand or fall together. So believing, I have spoken to you today without reservation or exaggeration in behalf of that policy which, in my judgment, will most certainly promote the welfare and preserve the credit and honor of our whole country.

When the convention reassembled at p.m. Judge Rose, chairman of the Resolutions Committee, presented the following report, which was unanimously adopted without debate:

The people of the Southern States will believe the maintenance of a sound and stable currency to be essential to the prosperity of the whole country and to the welfare of the people in all representations of life, do, through their representatives at the convention assembled at Memphis on March 23, 1895, make the following declaration:

that wherever and whenever the legal coinage ratio varies from the market commercial ratio to any appreciable extent, the dollar, whether of gold or silver, which thereby becomes more valuable than bullion than as money, will go to a premium and retire from circulation. I saw this principle applied in our own national experience, when under the act of 1872, which fixed the coinage ratio at 1 to 1, gold retired from circulation because

tain the working classes in comfort and independence, and, finally, because the high cost of silver is manifestly a hindrance to the use of the American people that money which experience taught mankind to be the best suited for the promotion of commerce and the maintenance of the dignity of the encouragement of labor and the advancement of civilization.

Fourth—We would rejoice over the adoption of the silver standard, but in view of the continued fluctuations in the price of silver in the open market we realize that it is impossible for the United States independently to adopt a bimetallic standard, and we are therefore in favor of a standard which is safe and hazardous to the best interests of its people for this country to attempt its establishment. We favor the policy of this country standing in line with the other nations of the world co-operate with the other powers in any effort they may inaugurate looking to the adoption of true bimetallicism, but meaning that the United States should be assured, to maintain inviolate its existing standard of value.

Fifth—We favor the retention of part of our silver now coined, and in order to give a wider field for the use of silver and silver certificates below the denomination of \$10, the Secretary of the

The reading of the resolutions was frequently interrupted by applause. Resolutions indicating the support of the Reform Committee and Sound Currency of New York and urging the organization in the Southern States of "sound-money" clubs to carry on the campaign begun at the convention were adopted. In the afternoon, after the closing call, Congressman Patterson made a speech on the work of the convention. At the conclusion of Patterson's remarks, a resolution was adopted authorizing the report of the committee of one delegate from each State represented to superintend the distribution of proper "sound-money" literature. The convention then adjourned to the life.

HE IS SURPRISED.

MEMPHIS (Tenn., May 23).—To an Associated Press reporter, Secretary Carlisle today expressed himself as astonished at the magnitude of the "sound money" demonstration.

"I have the greatest confidence," said he, "in the ultimate success of the 'sound money' movement."

WACO (Tex.) May 23.—Senator Coke has this to say of Secretary Carlisle's Covington speech:

"It is the most pettifoggish exhortation I ever read, and I am surprised that a man of Carlisle's reputed ability would make such an effusion. The gold-bugger put Carlisle up to make the speech, and they would be great fools not to cla-

ATLANTA (Ga.) May 23.—The special representative of the Journal sent wires to report the Confederate reunion. Schofield has developed a political sensation. It is stated in Houston that Gen. Schofield will be a candidate for President and that his visit first to the military encampment at Memphis and his going thence to the Confederate reunion.

A Lebanon (Ind.) dispatch says that Thos. Irving, a wealthy farmer residing near the town, upon hearing some one in his room last night secured his revolver and, without saying a word, fired, killing his eldest son. He then attempted to kill himself.

One mile: Henry of Navarre won, Setina second, Tariff third; time 1:14 1/2.
Six furlongs: Marion G. won, Koko second, Aahland third; time 1:14 1/2.
Five furlongs, for three-year-old colts: Henry won, Rontio second, Sherlock third; time 1:14.
Latona Derby, for three-year-old colts, one mile and a half: Halma, 127 (Thorpe), to 3, won; Free Advice, 117 (A. Clayton), to 2, second; Basco, 118 (Martin), 4 to 1, third; time 2:14.
Six furlongs: Sassa and Basco finished as named.
Four and a half furlongs: Bruce Girdle won, Frances second, Henrietta third; time 1:14.
Six furlongs: Casarman won, All Over second, Metropole third; time 1:15.

Scramble for the New Lands in Which Three Hundred Men Participate.

Boomers Split to Found Two Settlements, But Afterward Decide to Unite—The Mayor Chosen.

United Press Licensed-wire Service.

OKLAHOMA CITY, May 23.—Today at

led each other on the narrow bridge, trying to pass one another. They whipped their horses and struck at them and at each other and at last got across and scattered, racing like mad.

The recklessness of the drivers, whipping their horses down the bank and

Finally frightened out, however, and men were off again.

Last night it was made evident to many of the boomers that all could not play the game as it was presented to the two towns. About midnight the crowd left Sweeney's for Dale, and, as this session went along, large additions were made to the ranks. Two towns have already been projected, Otney and Aurora.

A council was held, but the projectors of the plan did not insist in a consultation of interests. The new town is called McDard, in honor of the general deltor of the Choctaw road. The proposition, 5000 strong, then took up the

opened and a new town had been born. The Kickapoo opening was much in the nature of a huge farce. At 12:10 o'clock nearly all claims had from ten to twenty men on them. The crowd, however, did not restlessly before the moon hour arrived. At 1:15:07 o'clock by some watches and at noon by others there was a break here and there in the line, a wavering, and then broke into a run. The race across the level plateau was a very pretty sight.

BEFORE THE RUSH.

...ious Effect of the Earthquake

CHICAGO, May 23.—The government bulletin says that the exceptionally weather for the past week has been unfavorable for the best crops, and spread injury has been done by frosts, which have been general throughout the

cold nights have killed part of the
in the Carolinas and Georgia, reseed-
replanting necessary. Spring wheat
reported in excellent condition, and has
been unfavorably affected in North-
ota. Winter wheat suffered injury
in frost in Indiana and Missouri. In
colds the crop is less promising than
before, and no improvement has been
experienced in Kansas and Nebraska.
The satisfactory reports are, however,
derived from Arkansas, Tennessee and
Kentucky. The plants are small, but
abundant in Maryland.

in better than the average condition. "Over better," is a frequent expression of the farmers of that section. From the northern section of the wheat belt there comes a different story. Kansas reports a loss of less than half a crop. In Illinois, Indiana and Ohio chinch bugs, rust and other insects have aided the frost in doing much damage to wheat. Missouri and Michigan also report losses.

On the Pacific Slope, which is becoming one of the largest wheat-producing sections of the country, all reports agree that

Under an order of the King of Spain in 1813 His Majesty annexed the Mosquito Coast to Santa Fe de Bogota, and when Colombia gained her independence she became the rightful possessor of the Mosquito Coast, assigned to her by the principles of posseditos (the base or principle of a treaty which leaves belligerents mutually in possession of what they have acquired by arms during the war), and exercised dominion over that territory up to 1824.

Presbyterians Get Down to Work on the Seminaries.
Associated Press Leased-Wire Service.

PITTSBURGH, May 23.—The Presbyterian General Assembly demonstrated today that its action in continuing the directors of Union Seminary as members of the church boards, which was taken on Tuesday and Wednesday, would seem to have been dictated by fear of the result which might follow the policy of exclusion.

The Times

ALL ALONG THE LINE.

A lemon tree in the Sweetwater Valley, San Diego county, has just yielded thirty-one and one-half boxes of marketable lemons. At \$2 per box this yield would represent \$64.50 for a single tree, and eighty trees to the acre, at this rate would produce \$7560. Lemon-growing has superb possibilities.

U. S. Grant, Jr., has one of the handsomest ranch houses in San Diego county. It is perched in a charming location on the side of Sweetwater Valley, overlooking the mammoth Sweetwater reservoir, and within easy walk of the railway to San Diego city. The house is of the old colonial style of architecture. Mr. Grant and his family find much pleasure in this delightful ranch, and he is giving careful attention to the cultivation of the property.

At the entrance to one of the leading business blocks of Los Angeles is a placard which reads, "Canvassers, peddlers and beggars not allowed in this block." It is certainly not very complimentary to canvassers and peddlers to associate them with ordinary beggars, but it is a fact that the intrusion of the former classes into business offices has become very much of a nuisance, and the owner of the block took this measure of protection. The lot of canvassers in a city is hard, and one cannot but feel a sense of pity for those especially women—who are trying to make a living this way.

A story comes from San Jacinto Mountain that a wise old rancher desirous of ridding his ranch of large quantities of rattlesnakes, imported twenty-five razor-back hogs from North Carolina. North Carolina hogs have a national reputation for killing rattlesnakes. They have done much to rid that State of the pestiferous reptiles. Upon arriving at San Jacinto the hogs from the Tar-heel State promptly attacked a den of snakes, and, according to the published report, killed upward of five hundred of the vicious serpents in ninety minutes. The venom of a snake has but slight effect upon the circulation of a hog, consequently not a razor-back was killed in this terrible slaughter. Then all but the razor-back hogs! Let him be given a still larger circulation!

"Even in the matter of mosquitoes," says a visitor to Southern California from New Jersey, "this section is so far ahead of the Jersey and the New England coast that it would pay seaside sojourners to come out here for their summer vacation. Many a fond mother at the Eastern seashore resort, where she has fled to escape the city heat and give the children rest and recreation, worries continually because the young ones are bitten fearfully by the blood-thirsty mosquitoes. On this Coast you are comparatively free from the blood-sucking insects. In comparing California mosquitoes with the New Jersey article, I notice that the Pacific Coast insect is very loudly, but it does not bite frequently. Its poison is far less venomous than that of the New Jersey mosquito. Along this Coast there are very few marshes for mosquitoes to breed in, while along the Atlantic Coast is a continuous line of marsh land. To the mind of a New Jersey man the quality of mosquitoes in the lands where he travels is one of the indicators, as it were, as to the desirability of that land as a place for comfortable habitation. Southern California pleases me in this respect."

RELEASED ON BAIL.

Visalia's Postmaster Arrested and Held Under Bonds.

The defaulting postmaster at Visalia, Lloyd V. Nancawen, who was yesterday brought to Los Angeles by Deputy Sheriff F. E. Goodrich, has been released upon his giving a bond for \$2000.

He is accused of having a shortage in his accounts incurred during his appointment as postmaster at Visalia, amounting to \$730.

H. W. Dean, the postmaster who preceded Nancawen at Visalia, was indicted by the grand jury at the same time with Nancawen, but he has not as yet been arrested.

Mr. Nancawen will appear before Judge Wollborn this morning to answer to the charge made against him.

BICYCLE NEWS.

Races Called Off and Postponed—The Globe Wheeler.

Miss Londonderry, the young Yankee woman who has undertaken to wheel her way around the world on a bicycle, is lingering in Los Angeles, having plenty of time at her disposal. After having almost completed the circuit of the earth, she finds that the worst part of her journey lies before her, across the Colorado Desert. She did not mind the traveling across the ocean or even going through the Suez Canal, but she is appalled at the prospect of wheeling her way across the Colorado desert. She does not yet know which route to take eastward, but she has asked the manufacturers of the bicycle who is advertising to provide her an escort between Los Angeles and El Paso or Albuquerque or Salt Lake city.

The circuit races called to come off at Santa Ana Saturday of this week, have been postponed to some time in June in order to have the use of the new track to be made.

The State circuit races set for San Diego and Bakersfield have been indefinitely postponed.

There will be bicycle races at Riverside July 4 and San Bernardino on the 5th, on new three-lap tracks now being prepared.

W. A. Foster and A. N. Jones have gone north to recuperate.

W. A. Burke is in training here. Casey Castleman is laid up with the grippe.

It is announced that Arthur Griffin and Charles Miller, having satisfactorily answered the interrogatories regarding the charges against them, their suspension has been ended and they are reinstated as class A amateurs.

Horace Slater, the fastest man in Arizona, is in Los Angeles. He has been suspended from class A, pending investigation of charges. He is going into the bicycle business in Arizona.

FANCY CAVALRY.

List of Members of the New Troop.

As noted in The Times yesterday, a cavalry company is being organized in Los Angeles, to include well-known gentlemen who are good horsemen. A communication addressed to Adjt.-Gen. A. W. Barrett, N.G.C., reads as follows, with the signatures appended:
"We, the undersigned citizens of the State of California, residing in the city and county of Los Angeles, do hereby make application to be organized into a company or troop of cavalry, to be attached to the First Brigade of the National Guard of California, and to be located in the city of Los Angeles.
"We would ask that this application be granted at an early date as possible."

GONE TO NEW YORK.

Ex-Policeman Kinney Elected With Sweet Marguerite.

Ex-Police Officer E. H. Kinney, who was discharged from the force about two months ago for conduct unbecoming an officer, has levanted and the woman that caused his downfall has gone with him, so it is reported on good authority.

Kinney has not been seen at his home or about his old haunts for a week past, and it has been learned that he and the French woman, Marguerite Marmontel, bought tickets at San Bernardino last Saturday for New York. Those who know Kinney best are not surprised at this news, as it was expected that he would run away with the woman at the first opportunity.

Kinney deserted his wife, who was devoted to him, and stood faithfully by him during his recent troubles, when all his friends advised her to sue for a divorce. His father-in-law, L. B. Cohn, the pawnbroker, also did much to help him along, but it seems he was entirely devoid of gratitude. It is probable that Mrs. Kinney will now apply for a divorce.

Awarded.

Highest Honors—World's Fair.

DR.

ICE'S CREAM BAKING POWDER.

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant 40 YEARS THE STANDARD.

Taffeta Plisse.

Looks like silk, 30 to 32 inches wide. The colors the nearest approach to perfection that has ever been reached in cotton goods. 20 cents a yard.

Duck Suitings.

More has been sold this season so far than for all last year. They grow in popular favor; 8½ cents to 15 cents a yard. Nearly one hundred styles to select from.

Kid Gloves.

Real kid Mousquetaire 6 button length. All new fresh skins. All sizes, 79 cents a pair. Not \$1.50, their real worth. 4 button kid gloves, all colors, big pearl buttons, \$1 a pair. Better ones we never sold for the price. Pique stitched real kid gloves. An excellent street and driving glove, equal in every way to the \$2 quality, this lot \$1.50. Biarritz kid gloves, soft and flexible, a splendid wearer, \$1 a pair. Chamois gloves, white and tan, \$1.

Corsets.

The famous Royal Worcester. Long, medium and short waists, extra long and extra short, \$1 up \$6. We recommend the Royal Worcester upon its real merits for fit, style and price. There is no better corset made when all things are considered than the Royal Worcester. Cheaper corsets made by the Royal Worcester Corset Company. They are not branded, the price 50 cts. a pair. We recommend them for the price. They are equal to most corsets sold for a dollar made by others. A fine, nice, good-fitting summer corset, 50 cts. a pair. We sell this corset largely for bathing and for bicycle riding.

Duck Suits.

It hardly pays to bother with the making. You cannot better the fit. The price is for you to consider, \$1.25, \$2, \$2.25, \$2.50 and \$3. You have probably noticed duck suits advertised for \$5. Compare with our suits advertised for \$3. All-wool suits \$7.50 and \$10. New styles and first-class goods. We are building up the suit trade by extra low prices. All-wool separate skirts \$5. A special price for choice goods.

More new millinery. Sailors 25c, 50c, 75c and \$1.

Newberry's.

ARIZONA NEWS.

Tempe Bankers Indicted by the Grand Jury.

Phoenix Trotters Carry Off First Honors at Albuquerque—The University's First Class.

The Maricopa and Phoenix Road to Continue to Mesa Unimpeded—Changes in the Militia—Prescott's Celebration.

PHOENIX, May 22.—(Special Correspondence.) Phoenix trotters are being heard from from Colorado and New Mexico. The horses in question are Ben Bolt and King Pin, now in Denver. Ben Bolt was matched at Albuquerque against May Queen, the New Mexico favorite in the 2:34 class. The Phoenix horse won in 2:49, 2:40 and 2:33, taking all three heats. Ben Bolt is a very young trotter, expected to make some fine showings in the coming circuit. King Pin likewise did well at Albuquerque. In the 2:40 match against Nimble Jim and Rowena he won three in four heats; time 2:50, 2:40 and 2:42. The third heat was won by Nimble Jim in 2:46, by half a length. The Phoenix horse returned to Phoenix until the close of the circuit.

A plucky Phoenix boy is Eddie Sawyer, the twelve-year-old son of Dr. E. O. Sawyer. Recently he was in the Buckeye country, his big dog along, when he saw a large lynx near, ready to make for him. He called the dog's attention to the animal, and directed him to attack it. The dog then made for a house near for a gun, and, returning, had a Mexican he brought along kill the animal. He found her kitten, six weeks old, near, and captured it.

The first important break in the monopoly of the North Side canal suit case occurred yesterday afternoon, when all the parties to the suit, the lawyers and the receiver, stopped to eat a box of apricots presented by one of the plaintiffs, A. L. Henshaw.

MILITIA CHANGES. Battalion formations in the National Guard of Arizona have been withdrawn. The order, just issued by Adj. Schwartz, takes effect June 1. In part the order reads:

"Battalion commanders are hereby relieved from command of their respective battalions from said date. Company commanders will forward all returns, reports and official communications direct to regimental headquarters and will receive all orders and official communications direct from the regimental commander."

This move will do away with needless formalities, and is also made owing to the remoteness from each other of the various companies of a battalion. Four thousand rounds of ammunition have been allowed each company for the Territory for target practice. No Memorial day orders have been issued.

The Board of Control has let a contract for porches at the insane asylum. The porches will be heavily screened, so that inmates may sleep outside during the summer.

EXCURSIONISTS COMING. Yesterday a party of excursionists left Indianapolis, bound for the Salt River Valley on a tour of inspection of the numerous reported wonders of this section of Arizona. There are nearly fifty persons in the excursion, the majority are people of wealth, and they will be one of curiosity alone, as they come with a purpose which will be of benefit to Phoenix. The excursionists will be given them a stop-over privilege of twenty days, in order to have them thoroughly look over the country.

The operations management has canceled all engagements for this season. During the warm months, now coming on, small houses are the rule, and the move is made to avoid giving Phoenix a poor reputation in the theatrical world. Local talent will be given full swing, however.

The steam dredger on the Maricopa Canal, recently wrecked, has been repaired, and yesterday resumed the work of clearing and widening the canal.

The Vendome property, on Washington, between Third and Fourth avenues, was sold this week for \$15,000. A fine brick business block will be erected adjoining the hotel.

A large balloon was seen to pass over the city Sunday. Glasses revealed two men in it. Who the aeronauts are is not known. Articles of incorporation have been filed at the Maricopa County Clerk's office for the purpose of purchasing the mines and plant of the Harcar Copper Company and other properties.

The new route will be completed in the work of the present carriers. Numbering of houses in the additions in question is now in progress.

Some local business dealers are in receipt of a carload of marble from Vermont. Arizona has several extensive marble quarries, supplying quite as good stone as the Vermont articles. Some day Arizona will be ending marble east, and the sooner several good marble quarries of Arizona are developed the sooner it will be done.

TUCSON, May 22.—(Special Correspondence.) Souvenir invitations are out for the first commencement of the University of Arizona, to take place on the 25th of May. The first class graduates number but a few persons, but a junior class is coming on that will another year show a rate of increase that in ten years would make the institution unparalleled in attendance. The programme for commencement day is as follows:

Music.
The Governor's Address.
Music.
The Regents' Address.
Music.
Addresses by the Graduates.
Music.
The President's Address.
Presentation of Diplomas.
Music.

The institution is making rapid strides and indications are that the fall outside attendance will be much larger than heretofore.

Miss Barton, who was appointed principal of the public schools here, has declined that honor.

In the old order of things California flour was shipped into Tucson. Now the California wheat is shipped in and the mills heretofore reduce the flour. The latest shipments are seventeen carloads in the future all the wheat to be of Arizona growth, as a good deal of it now is.

In the course of grading improvements everywhere being made one citizen removed a certain stone that was a boundary monument. A neighbor tried vainly to induce him to leave it alone. The services of Justice Scott were then called in and the obstruction is back in place.

Six trainloads of cattle from here and heretofore have been, or will be, shipped this week, as follows: Monday, at Ponto, one by W. L. Vail and another by J. M. Holt; Tuesday, from here, two trainloads for California by W. L. Vail, and Friday, from here, Mr. Holt's last shipment of the year of two trainloads.

The latest with regard to the new deal at Mammoth is that the Mammoth and Mammoth concerns will combine, to their mutual satisfaction. Certainly this arrangement looks well for both parties.

The Mohawk has three miles of pipe line laid from the river to their mine. The mine is a mile and a half from the river instead of at the river, as they are now situated. As the Mammoth people have developed mines and a mill, and the Mohawk people a pipe line, no mill and a good mine in the potential, but undeveloped, and as the two mines adjoin, the new deal should be mutually profitable.

The big sale of the postoffice is local, and refused to yield to the combination. As the stamps are all therein, Tucson is threatened with a stamp famine.

Special A.R. service will be held Sunday night at the Methodist Church.

PRESBOTT. PRESCOTT, May 22.—(Special Correspondence.) Events for the big celebration are being arranged. Dean Ross has received sanction from the L.A.W. for the bicycle races and records to be made. The bicycle days have not yet been arranged. The firemen's tournament will furnish \$1300 of the prizes. So far as arranged the races will be a "straightaway" and "wet test." The "wet test" prize will be \$750. Numerous teams are expected. The footracers, E. Bidwell and C. Peck, have signed articles for a race, distance, 100 yards, pistolshot start, for \$250. A side show race promises something good. Among the entries are Ben Bolt, the Phoenix horse that got away with the Albuquerque races Saturday. Proposals are now being received for the building of a grandstand, to be erected at the Driving Park, between now and the fourth of July. Already one Phoenix party has arranged for twenty-three rooms at one of the hotels for the celebration.

L. Font underwent a peculiar and dangerous accident. He was thrown from a cart, breaking four ribs. The ribs pierced his lungs. His condition is dangerous.

A CHINESE ENTERTAINMENT. A Chinese entertainment was given Monday evening at the Congregational church. In connection with the church is a Chinese class, where the celestials are taught to ignore their own religion and are instructed in English. It numbers between twenty and thirty and a feature of the social was the fact that the Chinese members of the class appeared in coats of different hues and colors. An expert band played a variety of selections of Chinese music, one of the number sang a Chinese song, while another one, who speaks "really good" English, told a Chinese story in English.

THE WATERS MINE SOLD. The Waters mine on the Santa Maria was sold here a day or two ago, to Clarence Clark of Phoenix, the sellers being D. C. Thorne and Thomas Bove. The mine was \$6000 down and the balance within a year. The mine is a feature of the mine, which is to be completed within sixty days from date. The mine is a large mine, and the mine is a large mine.

The funeral of the late Charles W. shot at Jerome Saturday, took place yesterday. It was largely attended.

A one-hundred dash was run at Whipple last Sunday by H. McCall and R. H. Slesinger for a purse. The race was won by Slesinger; time 0:10. Another race will be run next Sunday afternoon. The distance is to be 220 yards.

The D.J. Sullivan store was burglarized of numerous valuables, as discovered Sunday morning. The goods were found packed in boxes, where the goods were found packed in boxes. Three tramps were arrested and are now in jail. One of the men made 12 tracks, which explains their easy detection.

TEMPE. TEMPE, May 22.—(Special Correspondence.) The grand jury at Phoenix has been investigating the late bank failure here, with the result that prominent officials of the bank were indicted and are now under bonds. Those arrested on bench warrants were R. E. Dagg, president of the defunct bank; P. P. Dagg, senior member of the bank; W. L. Van Horn, cashier of the bank; and P. B. McCabe, who was legal adviser of the concern and one of the directors. The bond records against P. P. Dagg read: No. 628, for the embezzlement of \$50,000, bonds \$2000; No. 629, for the embezzlement of 10,000 head of Merino sheep, valued at \$30,000, bonds \$3000; No. 630, for the embezzlement of \$25,000, bonds \$2500; No. 631, for the embezzlement of \$9000, bonds \$2500; No. 632, for the embezzlement of \$42, bonds \$500; No. 633, for the embezzlement of \$1000, bonds \$500; No. 634, for the embezzlement of a promissory note for \$1000, bonds \$1000; in all, bonds in the amount of \$12,500 were demanded, which the court has ordered to be paid.

A NEW ALFALFA BLIGHT. Two weeks ago the alfalfa on one of Hon. Nick Peterson's 130-acre fields was out and the tract irrigated and placed in condition for another crop, but for some reason it has not grown an inch. On the new crop the alfalfa was out and the field was covered with millions of brownish-colored worms, about an inch long, that are eating the new grass shoot as fast as they come up. The worms are not new, but seem to be confined to this one tract, for the other fields that were cut at the same time are coming on as usual.

Some local business dealers are in receipt of a carload of marble from Vermont. Arizona has several extensive marble quarries, supplying quite as good stone as the Vermont articles. Some day Arizona will be ending marble east, and the sooner several good marble quarries of Arizona are developed the sooner it will be done.

TUCSON, May 22.—(Special Correspondence.) Souvenir invitations are out for the first commencement of the University of Arizona, to take place on the 25th of May. The first class graduates number but a few persons, but a junior class is coming on that will another year show a rate of increase that in ten years would make the institution unparalleled in attendance. The programme for commencement day is as follows:

Music.
The Governor's Address.
Music.
The Regents' Address.
Music.
Addresses by the Graduates.
Music.
The President's Address.
Presentation of Diplomas.
Music.

The institution is making rapid strides and indications are that the fall outside attendance will be much larger than heretofore.

Miss Barton, who was appointed principal of the public schools here, has declined that honor.

In the old order of things California flour was shipped into Tucson. Now the California wheat is shipped in and the mills heretofore reduce the flour. The latest shipments are seventeen carloads in the future all the wheat to be of Arizona growth, as a good deal of it now is.

In the course of grading improvements everywhere being made one citizen removed a certain stone that was a boundary monument. A neighbor tried vainly to induce him to leave it alone. The services of Justice Scott were then called in and the obstruction is back in place.

Six trainloads of cattle from here and heretofore have been, or will be, shipped this week, as follows: Monday, at Ponto, one by W. L. Vail and another by J. M. Holt; Tuesday, from here, two trainloads for California by W. L. Vail, and Friday, from here, Mr. Holt's last shipment of the year of two trainloads.

The latest with regard to the new deal at Mammoth is that the Mammoth and Mammoth concerns will combine, to their mutual satisfaction. Certainly this arrangement looks well for both parties.

YUMA. YUMA, May 22.—(Special Correspondence.) Flies and blackberries are ripe here. Early watermelons are well advanced and the late crop is in blossom.

Thomas Gates and George M. Miles have discovered, five miles this side of Castle Dome, a very rich gold prospect and have let a claim on the mountain this week for valley pasture.

The latest arrivals at the penitentiary are from Phoenix, Ryan, who got five years for burglary and Adlai, seven years for aggravated assault. The prisoners rode a horse through Yuma "straddle," and minus riding habit, bloomers or divided skirts, shocking or amusing the onlookers.

A grand barbecue at the old quartermaster building has been suggested as appropriate Fourth of July observance.

Hon. Mike Nugent has been appointed inspection inspector for Arizona, whatever that may be. The salary is \$1200 a year and the duties are said to be "not onerous."

A colony is being formed at Moberly, Mo., for the purpose of settling on the lower Gila, in this country. They are said to have ample means. Complaints of industrious habits, who are simple means, are always welcome in Yuma.

NOGALES. NOGALES, May 22.—(Special Correspondence.) The new mail route to Oro Blanco will soon be under way. Postmaster Wylie has received authority from the Postoffice Department at Washington to receive bids for carrying United States mail between Nogales and Oro Blanco three times a week each way, the mail to leave Nogales at 7 o'clock a.m., Mondays,

Wednesdays and Fridays, reaching Oro Blanco at 3 o'clock p.m.; and on Tuesdays, Thursdays and Saturdays leaving Oro Blanco and arriving at Nogales at the same hours. Bids will be received by Postmaster Wylie until May 23, and service is to be one year, beginning July 15, 1895.

A four-horse Concord coach made a trial trip over the new road to Oro Blanco recently. The trip was made in the valley in hours, and a light rig could make it in six hours.

There is danger that Nogales will lose her reputation for cheap cigars, owing to the suspension of the privilege of shipping in bond through the United States customs force demanding a duty. As shipments cannot conveniently reach here from Vera Cruz, except via the United States, there is fear of smoking becoming more of a luxury here than before.

TOMBSTONE. TOMBSTONE, May 22.—(Special Correspondence.) There is war among the Chinese of Allen street, between members of two companies. It grew out of a misunderstanding over the sale of some property.

The ball club are practicing for games for the Fourth of July. A Mexican battle Saturday night near the old postoffice was a source of much enjoyment to the host of cowboys who came from the round-up in the valley. Things made to hum in that portion of town while the dance lasted.

BISBEE, May 22.—(Special Correspondence.) Three accidents occurred here this week. The most serious was to a Slavonian. It was at the converters. He was holding a bar, while a fellow-workman was striking it with a sledge. The Slavonian missed the bar, and the sledge fell on his head, and penetrated the surface. On these little fibers the nuts form and grow. Do not disturb the hills where they are growing. Keep water away from the hills and vines. The moisture should come from a long top root, which goes down about one foot.

Do not disturb the roots by plowing or hoeing too close to the plants. Cultivate two or three times, turning the soil up to the plants. Do not be alarmed when the blossoms appear and be misled into the idea that they must be covered. The blossoms should be covered with a bud and penetrate the surface. The Peanut Crop.

(Written for the Times.)

The Western farmer should not fail to make the peanut one of his general crops. This succulent nut thrives well under irrigation, and produces abundant returns.

The peanut crop is valuable if properly handled, and will soon become the leading product of the small farms in the arid West. It is suitable to a sandy soil, requires a little fertilization, and is easy to grow.

A warm, sandy soil is the most suitable place for the peanut. The land should be plowed deep, harrowed well and thoroughly leveled before the planting. Peanuts are much the same nature of the common pea or bean, and should be planted about a similar depth. Shallow rows, about two feet apart, should be furrowed out, and the nuts, after being shelled, should be sown in a hill, with the hills about one foot apart in the row. Cover lightly with a garden-plow or hoe, and leave the nuts to germinate. Warmth almost will cause the seeds to sprout within a very few days. Do not irrigate the plants when young, as the growth will be stunted and the yield decreased.

When the plants are large enough, cultivation should begin between the rows. Do not disturb the roots by plowing or hoeing too close to the plants. Cultivate two or three times, turning the soil up to the plants. Do not be alarmed when the blossoms appear and be misled into the idea that they must be covered. The blossoms should be covered with a bud and penetrate the surface. On these little fibers the nuts form and grow. Do not disturb the hills where they are growing. Keep water away from the hills and vines. The moisture should come from a long top root, which goes down about one foot.

Do not disturb the roots by plowing or hoeing too close to the plants. Cultivate two or three times, turning the soil up to the plants. THE PUBLIC SERVICE.

The City Council Holds a Brief Special Session.

How a Pair of Over-zealous Witnesses Got Themselves into Trouble.

The Fitzpatrick Boys on Trial for the Pasadena Murder—Objection to the Use of Sewage for Irrigation.

The City Council met in adjourned session yesterday morning, but beyond the adoption of an ordinance of intention to open and extend Fifteenth street, and one or two other minor matters, transacted no business of importance. The Sewer Committee adopted its report for presentation to the Council on Monday next.

"We recommend in the matter of the ordinance of intention to construct a sewer on Fremont avenue and Third street, that the same be referred back to the City Engineer with instructions to present an ordinance to sewer Fremont avenue, from Second to Third streets."

AT THE CITY HALL.

PARK COMMISSIONERS ECHO PARK TO HAVE A BOATHOUSE ALSO.

The Board of Park Commissioners met in regular session yesterday morning. Mayor Rader presiding, and all the members, with the exception of Commissioner Post, being present.

After the minutes had been read and approved the proposition of Newell & McClellan to lease the privilege of running a soda water, ice cream and cigar stand at the Westlake boathouse for two years, at an annual rental of \$60 was taken up.

Commissioner Cross expressed the opinion that the public were pretty well provided for in the matter of refreshments already, there being a number of such stands outside the park.

Mayor Rader, however, was of the opinion that such a stand as that proposed would be a great convenience to patrons of the boathouse, many of whom wanted some refreshment after their exertions on the lake. He did not think, though, that the board ought to allow tables and chairs to be placed in front of the stand, nor was he in favor of permitting the sale of cigars there.

Although himself a confirmed smoker he thought that the ladies ought to be consulted and as many of them objected to being compelled to breathe a smoke-laden atmosphere, he would suggest that signs forbidding smoking be placed there.

Commissioner Cross said that there was no more room than was actually necessary at the present time, and moved that the matter be laid over until the next board meeting, at which time the board should have an opportunity to investigate it.

As there were others outside of the park in the same business, he thought that if the board decided to allow such a stand it would bring a good deal more than the amount offered.

The matter was thereupon referred to the committee to erect a pump at Echo Park, the present system of carrying water by the bucketful being very expensive.

Upon motion of Commissioner Teed, the clerk was directed to advertise for bids for floating privileges at both Hollenbeck and Echo parks.

Mayor Rader expressed the opinion that the latter park ought to be omitted from the motion until a boathouse was built there, but Commissioner Teed overcame this objection by moving that one be built at a cost not to exceed \$250, which motion prevailed. This boathouse is to be so constructed that it can be enlarged when necessary.

A communication from the City Council, with reference to the erection of a drinking fountain at Westlake Park, was received and filed; the matter having already been attended to.

The petition of M. Marques, for the renewal of his lease for a tract of land on Solano street, in Elysian Park, for the cultivation of potatoes, was filed.

Upon motion of Commissioner Workman, the superintendent was authorized to purchase a horse from the fire department for use at Elysian Park.

The petition of C. H. Squire for the approval of his demand, in full, for services rendered in painting the bandstand at Central Park, in February last, the same having been disallowed to the extent of \$16.65, was filed.

The board thereupon adjourned, to meet again on Wednesday morning next, for the purpose of approving the pay-roll of the department for the current month.

City Council.

A BRIEF SPECIAL SESSION HELD YESTERDAY MORNING.

The City Council met in special session yesterday morning, pursuant to adjournment, President Teed and five other members answering the roll-call, the absentees being Councilmen Ashman, Blanchard and Snyder.

The City Attorney reported as follows:

"To the Honorable Council of the City of Los Angeles—Gentlemen: In the matter of the complaint of the Nelson Smith, referred to this office, in which he makes complaint that, having boarded a south-bound electric car at the Plaza, he was refused to pay the fare, and that the driver of the car, who had been referred to the City Engineer, had been refused to give transfers at that point to the Boyle Heights car, both from north-bound and south-bound cars."

The report was received and filed without comment.

The City Attorney also presented a draft of an ordinance of intention to open and extend Fifteenth street, from the

AT THE COURTHOUSE.

The Courts.

A NAUGHTY CYPRIAN WHO IS IN TROUBLE.

Jennie Turner, the keeper of an Alameda-street dive, made application yesterday before Judge Smith for a writ of habeas corpus. Miss Turner is one of the large number of cyprians who were brought before Justice Morrison on May 16 to answer to the charge of keeping houses of ill-fame.

The case becomes complicated from the fact of her pleading guilty to the charge and receiving from the court a sentence of sixty days in the City Jail, and a fine of \$150, while the remainder of her companions in vice entered a plea of not guilty, and, upon a slight technicality, were dismissed by the Justice.

This produces an interesting legal knot, the unraveling of which will devolve upon Judge Smith, who has granted the writ of habeas corpus in the case.

After some argument and citation of authorities by the attorneys, the court ordered that briefs in the case be submitted, which would be presented in a few days.

THEY TALKED TOO MUCH.

The prosecution in the case of Healy and Bonn, who are charged with a murderous assault upon James Turner, rested their case at the opening of Justice Young's court yesterday.

A motion was immediately made and argued by Gen. Johnstone Jones, asking for a dismissal of the charge upon the ground of the inadmissibility of evidence already adduced, to connect the defendants with the crime.

The motion being denied, a number of witnesses were introduced by the defense, these witnesses testifying to Turner's being the aggressor in the fight, rather than Healy or Bonn, the defendants.

Two of these witnesses, in their zeal to clear Turner from the charge of assault, declared that they had themselves done all the "battering" that was indulged in at the time when Turner, Deputy District Attorney Willis promptly swore out warrants for these young men, Tony Bonn and E. Reeder. Their case will come before the court tomorrow.

The examination of witnesses in the original case will be continued today.

ASSAULT AND MURDER.

A jury was drawn yesterday in Department Five for the trial of William Fitzpatrick and Ray Fitzpatrick, who, upon the complaint of W. T. Harrington, are charged with the murder of P. E. Newton.

The offense is alleged to have been committed in Pasadena on the evening of February 19, Newton, with his friend Harrington, was returning to Pasadena from a suburban trip and met the defendants in the northern part of the city.

Becoming engaged in a conversation, knives were drawn by the Fitzpatricks and very freely used upon both Newton and Harrington, the former sustaining twenty-three wounds, from which he shortly after died.

The defendants are represented by Hunaker and Lucas, while the prosecution is being conducted by W. T. Williams.

Dr. Swearinger, the physician who examined and dressed the wounds of the injured man, was the first witness called by the prosecution.

At the conclusion of his testimony, which was in line with the facts already stated, the court adjourned, and the hearing in the case will be resumed this morning.

DIVORCE CASE SETTLED.

The case of Halstead vs. Halstead, a suit for divorce brought by Mr. Halstead, for cruelty on the part of Mrs. Halstead, and for adultery, was yesterday terminated in Judge Van Dyke's court.

The case has been conducted for a number of days behind closed doors, and counter charges of infidelity have been filed by Mrs. Halstead against her husband.

After hearing the evidence the court rendered judgment for divorce on her cross complaint of infidelity.

COLD COMFORT.

The suit to recover funds amounting to \$3500, brought by Attorney Hinkley against A. Krug, was continued before Judge Shaw yesterday. Argument in the case was conducted by M. E. C. Stundley for the plaintiff, and by J. W. Williams for the defendant.

Emphasis upon the vast amount of time and labor involved by an attorney in acquiring the skill necessary to be used in drawing up legal documents and attending to legal affairs.

He exhorted the defendant, Mr. Krug, for his stinginess in withholding funds from Mr. Hinkley, and for the transaction of his business, and then standing him for the failure to bring such business to a successful conclusion.

The arguments were followed by that of Mr. Trask, the attorney for Mr. Krug, in his conclusion a lengthy charge was given by the court to the jury, who then retired to frame a verdict in the case.

The jury brought in their verdict at 7 p.m., after deliberating four hours, giving plaintiff a verdict for \$85. This case has been in the courts for nearly four years, and has been to the Supreme Court once.

SENTENCED FOR TWO YEARS.

John Vaughn was yesterday sentenced by Judge Smith to two years' imprisonment at San Quentin.

Vaughn was convicted on Monday last of an assault with a deadly weapon upon J. G. Taylor, with whom he had been in a saloon at the end of the Central avenue car line.

Court Notes.

The application of the Church of the Unity to sell property valued at \$2500, located in Boyle Heights, near Highland Park, was heard by Judge Shaw yesterday, and permission was given to the corporation to act as they desired in the matter.

A petition has been filed with the County Clerk asking for the probate of the will of Mr. William A. Smith, a resident of Minneapolis, Minn., and also for the appointment of an administrator.

White, at the time of his death, owned a lot in East Los Angeles valued at \$1000, and the petitioners seek to have H. P. Earle of Los Angeles appointed as administrator of the same.

In a suit brought by the Southern California National Bank to recover an amount due on a promissory note from J. E. Durkee, the plaintiff was awarded judgment by the court in Department Three, amounting to \$1777 and also for the attorney's fees, which are set at \$100.

Information was filed yesterday in Department One of the Superior Court against Manuel Dominguez, who is charged with an assault upon the person of Harvey Brannan, committed on the 25th of February last. He will be arraigned on the 27th inst. before Judge Smith.

A suit for divorce was brought before Judge Smith yesterday by Mrs. K. C. Vawter against J. E. Vawter. The defendant not being present, a decree was granted by default, and the decree was granted.

J. W. King, a native of Canada, appears before Judge Smith yesterday, and was made a defendant in a suit for libel by his Honor.

In the matter of the petition of A. G. Smith, an insolvent, to have certain personal property taken in custody, Judge McKinley decided that, there being no creditors present, the petition should be granted.

Board of Supervisors.

PROPOSITION TO UTILIZE SEWAGE IN IRRIGATION.

A petition was received yesterday by the board from Kirby & Howard, asking that permission be granted them to construct an irrigating ditch in the valley between Los Angeles and Redondo. It is proposed by the petitioners to use the city's waste sewage in the reclamation of the lands in that territory, and a large

Siegel,

Under Nadeau Hotel.

number of signatures are affixed to their petition.

A protest has been filed with the board against the granting of this petition by those who claim that the use of the sewage in the district would create a nuisance.

Daniel Freeman is the principal petitioner, and, upon motion of Mr. Hay, the matter was continued until June 5.

A petition from H. E. Stora, asking the board to advertise a franchise for an electric railroad in the territory southwest of the city, was received.

The motion of Supervisor Hay that bids be advertised for, was carried, and the time for opening them was set at June 26.

The application of Adam Kappes for a saloon license at the Main-street Gardens was granted, upon the condition that the applicant's bond be filed at once.

It was decided by the board that a visit should be made on the 25th inst. to the Cahuenga Valley, to inspect the grounds with reference to the granting of the franchise for the proposed electric railroad.

Three members of the board, Fields, Woodward and Hanley, yesterday paid a visit to Palmdale, Almondale and Elizabeth Lake.

The proposition of the City Board of Health to have the recently-appointed meat and milk inspector, J. C. Blackington, made deputy county inspector, was taken under advisement by the board.

BONANZA IN CHERRIES.

The Experience of a La Canyada Fruit-raiser.

Some of the late donations to the chamber are: A handsome display of Gov. Wood and Black Tartarian cherries from the ranch of A. Curtin of Downey, who reports an orchard of eleven-year-old trees breaking down under the load of fruit; an exhibit of about fifty boxes of California M. Workman of Boyle Heights; and another exhibit of cherries from the ranch of Theo Picketts of La Canyada, which, taken with the fruit from Mr. Curtin's orchard, goes far as a convincing argument in favor of the cherry as a profitable fruit for cultivation in Southern California.

Mr. Picketts claims that he will make more this year from his cherry orchard than he would from an orange orchard of the same size. His faith in the future of cherries raised in the part of the country is evidenced by his willingness to add six hundred trees to his cherry orchard this spring.

Forty-five little Spanish-Americans were enjoying life at the Chamber of Commerce yesterday afternoon. Room 5 of the Castler school turned out en masse under the guidance of the teacher, Miss Somers, and took in the exhibition.

Secretary C. D. Willard of the Chamber of Commerce has gone to Bakersfield for the double purpose of a short stay with his brother who resides there, and a conference with the Supervisors of Kern county concerning an exhibit from that part of the country which they are anxious to place in the Chamber of Commerce.

PEABODY'S PREDICAMENT.

Ranch Hand Arrested on the Charge of Burglary.

A gold watch belonging to Mrs. Cora Walters was stolen from her residence at No. 615 East Second street a short time ago. A few days later it was discovered in the window of a pawnshop on Main street.

A woman who passed as the wife of Otis Peabody was the person who left it there and was accordingly taken in custody. She explained that the watch was given to her by Mr. Peabody to dispose of, but professed not to know how he came in possession of the time-piece. Peabody, who resided at No. 2400 Main street, was given to her by Mr. Peabody to dispose of, but professed not to know how he came in possession of the time-piece.

Peabody, who resided at No. 2400 Main street, was given to her by Mr. Peabody to dispose of, but professed not to know how he came in possession of the time-piece. Peabody, who resided at No. 2400 Main street, was given to her by Mr. Peabody to dispose of, but professed not to know how he came in possession of the time-piece.

Justice Owens yesterday gave Mead, Wright & Co. judgment for \$152.76 against W. L. Kuykendall.

Have you been to Mt. Lowe? The W.C.A. excursion on May 20 affords a fine opportunity to see the city. Tickets can be had at the association rooms or of members; \$1.75 to members; \$2 to others.

Owing to the caving-in of the bank during the excavations for the new city hall, a large and dangerous hole has been caused, which is a menace to the children attending that institution.

Earl Anthony, the thirteen-year-old son of Charles E. Anthony of No. 1129 West Seventh street, has left at the Times office a photograph of the Times building which he took with a pocket camera. Two pictures is but little larger than a postage stamp, but it is clear cut and distinct.

There is a move on foot among the Spiritualists of Los Angeles to organize a camp-meeting in Southern California. Committees are engaged in preliminaries and looking up acreage suitable for the purpose. It will probably be at one of the seashore resorts.

PERSONALS.

Dr. J. E. Cowles and wife returned yesterday from a two weeks' vacation at Arrowhead.

Rev. Fred V. Fisher of Long Beach was called to New York Tuesday by the death of his father, and to settle the estate.

RED MEN MEET.

Election of Officers in Their Unique Order.

A meeting of the Improved Order of Red Men was held last evening in the N.S.G.W. parlors. The meeting was the last of the preliminary meetings, which have all been held to make preparations for the institution meeting which will take place on June 1 in the Elks' Hall.

There has been no tribe of Red Men in this city for three years, but through the efforts of J. L. Morrison, W. L. Price and W. T. Harris the order has been revived and is now expected to flourish. It was decided to name the tribe after the Cocopa band of Indians, who occupy the reservation in Southern California, near Yuma.

The chairman of the meeting, J. L. Morrison, of San Francisco, explained the purpose of the order to be the extension of freedom, friendship and charity. With the exception of the Masonic order, it is the oldest in the United States, and is the largest order in the States of Massachusetts, Georgia, Illinois and Oregon. There are eleven tribes of Red Men in San Francisco.

The balloting for officers of the Cocopa tribe was proceeded with and resulted in the election of the following members to the positions specified: Sachem, W. L. Price; prophet, W. T. Harris; senior saganmore, O. W. Dunham; junior saganmore, H. W. Myers; chief of records, J. L. Morrison; keeper of campfire, H. P. Anderson; trustees, G. A. Barden, W. E. Keeler, P. J. B. Jehl.

Four warriors, two saganmores, a guard of the forest and of the wigwag will be appointed by the sachem at the institution on the 1st of June.

A large delegation of San Francisco Red Men will be present at the institution, when the adoption of members, and the ceremonies of the first, second and third degrees will be enacted. A banquet will be tendered the visiting brethren from San Francisco at the close of the institution.

DO NOT WAIT.

But reserve your seats tomorrow at the Los Angeles Theater for the Ideal Guitars, Banjo and Mandolin Club concert Monday evening. A rare treat.

TRY our Columbian lamp coal, \$8 per ton, delivered to any part of the city, spanning Company, No. 222 South Spring street.

U. S. HOTEL, rooms \$2 per week and up.

COUPON.

This will entitle the bearer to one copy of "Gathered Jewels of Song," upon presentation at our office, and the payment of 25 cents; 100 pages of late, choice, popular songs, with music; postage 2 cents. THE TIMES, Times Bldg., First and Broadway.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Baking Powder

ABSOLUTELY PURE

GREEN OR McCULLOUGH.

325 S. SPRING ST.

HANDY WITH HIS CHECK-BOOK WHATEVER HIS NAME.

A Railroad Man Who Claims Relationship With Superintendent Muir Raises Money by Questionable Means.

Another man who has been signing his name to checks on a bank at which he has no deposit, has gotten into trouble. The culprit, who says his name is Louis McCullough, occupies a cell in the City Jail, where he was placed by Detective Steele yesterday afternoon.

McCullough visited a saloon opposite the Arcade Depot yesterday morning, represented himself as a brother-in-law of Superintendent Muir of the Southern Pacific, and induced one of the proprietors, W. F. Lokowitz, to cash a check on the First National Bank for \$10. Later he tried to work another saloon-keeper named Shindler for \$5, but Mr. Shindler would not bite. He told Mr. Shindler that he was Superintendent Muir's father-in-law.

McCullough had not been gone long before Mr. Lokowitz began to feel suspicious about the check he had taken. He telephoned the bank and was informed that McCullough had no money there and was told that McCullough had called there a few days ago and represented that he had \$2742 in the First National Bank of Vincennes, Ind. He placed the account with them for collection and wanted to borrow some money of them in advance, but they declined to accommodate him. He, however, got one of the bank's checkbooks, which it seems he has been making use of. He represented at the bank, also, that he was a relative in some way with Superintendent Muir.

The matter was reported to the police and Chief Glass at once telegraphed to the First National Bank of Vincennes, Ind., inquiring whether T. V. T. McCullough, which was the name he gave at the First National Bank, had any money there. The reply was that he had none.

Detective Steele then got on McCullough's track and soon captured him on First street, near Hewitt. The detective learned that he had represented himself at various parties as a relative of Col. G. Green of Pasadena, and that he was going to be the engineer in charge of the new electric railway between Los Angeles and Pasadena.

He told the detective the same story and said the matter about the checks would be satisfactorily adjusted as soon as he got his money from Indiana. Officer Steele caught the prisoner in the act of destroying a slip of paper, which, when pasted together, proved to be a collection blank of the Los Angeles National Bank, dated May 21, and authorizing that bank to draw on Vincennes, Ind., for \$2742 on account of John E. Green. It being after banking hours none of the officers or employees of the Los Angeles National Bank could be found to interrogate concerning the matter.

Among the papers found on the prisoner was a notebook containing the names of many prominent citizens, including H. J. Woolcott, C. F. A. Last and others, all of whom, it is believed, he had designed as victims. He also had in his pocket a membership card in the local lodge of the American Railway Union, No. 89, made out in the name of John Green and dated December 21, 1933. In this he is designated as a car repairer. His true name is believed to be John Green, and further evidence that he is a railroad man is furnished by a time check which credits him with having worked ten hours on May 17, 1935, but the check does not indicate where or for what company.

He was dressed in an ordinary business suit, is about 40 years old, has an artificial eye and wears glasses. He will be examined for obtaining money under false pretenses, but his bungling methods and contradictory stories do not class him as a very smooth operator.

WONG KWONG ARRESTED.

Light Shed on the Shooting Affray in Chinatown.

Some light has been shed on the shooting affray in Chinatown the other night, by the arrest of Wong Kwong, registered at the police station as Ben Gong, for assault with a deadly weapon. The arrest was made by Officer Stephenson yesterday evening on a warrant sworn out by Wong Sui, in whose house the shooting occurred.

Wong Sui is the proprietor of four female saloons and rents rooms to his customers at \$5 per day. Wong Kwong, who was on a big spree, occupied one of the rooms five days, but had only money enough to pay for four. He yielded up \$24 and thought it being after banking hours none of the officers or employees of the Los Angeles National Bank could be found to interrogate concerning the matter.

Among the papers found on the prisoner was a notebook containing the names of many prominent citizens, including H. J. Woolcott, C. F. A. Last and others, all of whom, it is believed, he had designed as victims. He also had in his pocket a membership card in the local lodge of the American Railway Union, No. 89, made out in the name of John Green and dated December 21, 1933. In this he is designated as a car repairer. His true name is believed to be John Green, and further evidence that he is a railroad man is furnished by a time check which credits him with having worked ten hours on May 17, 1935, but the check does not indicate where or for what company.

He was dressed in an ordinary business suit, is about 40 years old, has an artificial eye and wears glasses. He will be examined for obtaining money under false pretenses, but his bungling methods and contradictory stories do not class him as a very smooth operator.

ENGLAND GOES EAST.

But Not as Deputy Sheriff Eagle's Prisoner.

Deputy Sheriff Eagle returned from Sacramento yesterday with request papers for the extradition of his prisoner, C. W. England, to Arkansas. The latter's friends, however, had made a play to secure his release on habeas corpus, and in order to avoid trouble of this kind, the Arkansas deputy finally agreed to release Mr. England on condition that he would return at once to meet the charges against him, or his own accord, as he had previously offered to do. With this understanding both men started for Arkansas last night, as ordinary traveling companions, instead of as officer and prisoner.

CHARLEY WATTS DEAD.

"Thirty" Ticked on a Well-known Telegrapher's Career.

Charles M. Watts, one of the best-known telegraphers in the United States, died at the home of his brother, W. F. Watts, at No. 2103 South Main street at 8:30 o'clock yesterday evening of pulmonary trouble. Mr. Watts had been in the employ of the Western Union Telegraph Company for the past fifteen years, being stationed at Los Angeles a considerable portion of the time. Up to within a few moments of his death he was able to walk about, and was in the garden picking flowers. He was well connected, his mother residing at Elkhart, Ind. It has not been decided whether his body will be sent East or interred here. Mr. Watts had a host of friends who mourn his loss. He was about 33 years old.

A Sensible McAllister.

NEWPORT (R. I.) May 23.—Ward McAllister's young son Hayward has decided to become a farmer, and will take charge of the farm belonging to the estate of his father, which, it is said, he rents. Ward McAllister gave plenty of time, and it is one of the most famous society resorts in the country.

Headquarters for Mexican Hand Carved Leather Goods.

Campbell's Curio Store, 315 S. Spring, Has Senior Cervantez, the Celebrated Mexican Leather Worker.

The only store on Spring street where you can see a leather-carver at work. He is the most expert Mexican leather-worker on the Coast. We have the only large assortment of these goods in the city. We make work to order with monograms, initials, etc. You can see the work being done. He makes belts, purses, cardcases, photo frames, portfolios, chateaux and many other articles. We are closing out the large stock of curios. "We will save you 20 to 50 per cent. on your souvenirs. Don't stop until you find our store. Campbell's Curio Store, No. 315 South Spring. Others try to imitate us and try to meet our prices, but they can't do it."
